RE: 2016 WATER MAIN CLEANING AND CEMENT LINING PROJECT – PHASE II
LAKE COMO, NEW JERSEY
OUR FILE NO.: PLC00404.01

Please be advised that on or about Monday, April 2, 2018, weather permitting, mobilization and work will continue on the above referenced project. This work includes the cleaning and cement lining of the existing water mains to remove internal pipe corrosion and improve water quality, flow, and pressure.

In order to perform the work, temporary water mains, fire hydrants and water services will be installed above grade. The temporary water services will typically be connected where your water meter is or in some cases an external hose bib. The Contractor will have to enter your home to access your water meter. They will provide you with notice and try to do so at a time convenient for you. Photo IDs will be worn by the Contractor's personnel and residents may call the Police Department if questionable circumstances and/or uncertainties arise with personnel identification. The work is expected to be substantially complete by end of August, weather permitting.

To assist in expediting the work, please call Sharon McCarty at 732-727-8000 in order to provide your contact information, including name, house number, phone number and email address. Please include your primary contact method and we will help coordinate the work to be done on your property with the Contractor.

Our office will have a representative on-site during construction to monitor the work of the DewCon, Inc. (908-832-5710). We will attempt to coordinate any work to be done in your area in order to minimize possible inconveniences.

In order to facilitate the work, we respectfully request that when possible no cars be parked on the street while the work is being performed. Emergency "No Parking" notices will be posted by the Contractor as required. The Contractor will attempt to maintain at least one (1) lane of traffic during the day and two (2) lanes at night. However, at certain times the road may have to be closed to traffic except to those residents who live within the project limits. During this period, detours will be posted. It is expected that no work will be done on weekends or major holidays unless absolutely necessary.

On behalf of the Mayor and Borough Council, we would like to thank you for your anticipated cooperation in this matter and apologize in advance for any inconveniences that may be caused during construction.

Should you have any questions regarding this matter, please do not hesitate to contact this office at 732-727-8000.

BMK/mdp
